

# Class 2 Home Learning

Week beginning Monday 13<sup>th</sup> July 2020 (Summer 2 Week 7)

Email: [charrison@wharncliffeside.sheffield.sch.uk](mailto:charrison@wharncliffeside.sheffield.sch.uk)

**I have included another file called 'Additional Holiday Activities' which has a selection of reading/maths tasks which COULD be used through the holiday (as some people have asked for this)**

Reading	English (including Punctuation & Grammar)	Spelling/Phonics Revision
<p>Read for at least 20 minutes every day. You don't just have to read fiction books, you can also find something else. It could be a magazine, newspaper, website, game instructions or even some recipes.</p> <p><b>60 second read: The Star (a poem this week)</b></p> <p><b><u>Just Imagine</u></b> Watch this video showing this book. <a href="https://www.youtube.com/watch?v=V7AYmUitLrY">https://www.youtube.com/watch?v=V7AYmUitLrY</a> Keep pausing the video as there are so many pictures to look at and decide which you would like to be/do/live etc.</p>	<p>There are more games set on Education City (Summer Term English).</p> <p><b>There are activities in the resources folder. Follow the suggested activities in the resources file (it may take longer than suggested!)</b></p> <p><b>Monday: Riddles Tuesday: Magic Spells Wednesday: Jokes Thursday: Dictionaries Friday: Crosswords</b></p> <p><b>Just imagine if you had a magic wand! What would you do with it? Could you write your own spells, make your own potions (check with an adult first!) Try making your own wand (see the lesson for Tuesday). What super powers would you give yourself?</b></p> <p>I have put a 'Summer English Activity Book (and answers) in the 'Additional Holiday Activities' folder too...if you want to start this or work through it over the holidays (this is completely optional but some parents have asked for more learning resources for the holidays).</p>	<p>Make sure you can spell all of the common exception words for your year group!</p> <p>If you can't...practise them over the holidays so that you will know them before you come back to school in September.</p> <p>If you can, look at the next year group and make a start on those.</p> <p>(See resources file for Year 1, Year 2 and Year 3 and 4 words).</p>

<b>Maths Fluency</b>	<b>Maths</b>		<b>Topic</b>
<p>You can play <b>ANY</b> game on Education City! The ones I have set link in with the White Rose Maths work over the next few weeks (Summer term 2).</p> <p><b>Try the ‘Mystery at Dragonspire Castle’ activities...can you solve all the clues to solve the mystery?</b></p> <p><b>‘Hit the Button’ (and other games on ‘Topmarks’) are great for keeping your maths skills up.</b></p>	<p><b>Year 1</b></p> <p><b>Week 12, week beginning 13<sup>th</sup> July, Lesson 1-4 pdf)</b>  <b>Please watch the White Rose video introductions here:</b>  <a href="https://whiterosemaths.com/homelearning/year-1/">https://whiterosemaths.com/homelearning/year-1/</a></p> <p><b>Lessons are about telling the time.</b></p> <p>Worksheets are in the resources folder. The activities should align with the BBC Bitesize materials which will show daily lessons and other activities:  <a href="https://www.bbc.co.uk/bitesize/tags/zjpqqp3/year-1-and-p2-lessons/1">https://www.bbc.co.uk/bitesize/tags/zjpqqp3/year-1-and-p2-lessons/1</a></p> <p><b>Being aware of ‘times’ is something you can work on at home. Tell children the time when you do certain things eg when a ‘lunch time/bedtime/tea time’ might be.</b></p> <p><b>Practise saying the days of the week and months of the year in order (there are lots of good songs for this on youtube).</b>  <b>Practise telling the time to o’clock and half past (and other times if they can!)</b></p>	<p><b>Year 2</b></p> <p>Please look at the lessons from Summer term <b>Week 11 (w/c 6<sup>th</sup> July...scroll down towards the bottom of their webpage for the videos!)</b>  <b>Lessons are about litres, temperature and telling the time.</b>  <b>Please watch the White Rose video introductions here:</b>  <a href="https://whiterosemaths.com/homelearning/year-2/">https://whiterosemaths.com/homelearning/year-2/</a></p> <p>Worksheets are in the resources folder. Follow the links to BBC Bitesize for more linked activities.</p> <p><b>Being aware of ‘times’ is something you can work on at home. Tell children the time when you do certain things eg when a ‘lunch time/bedtime/tea time’ might be.</b></p> <p><b>Practise saying the days of the week and months of the year in order (there are lots of good songs for this on youtube). Can the children spell these days and months?</b>  <b>Practise telling the time to o’clock and half past (and other times if they can!)</b></p> <p><b>I have also included week 12 worksheets for anyone over the holiday (telling the time to 5 minutes...if your child could start Year 3 being able to tell the time to 5 minutes that would be AMAZING!)</b></p>	<p><b><u>Art</u></b></p> <p><b>Make your own magic wand (see instructions for the English lesson on Tuesday).</b></p> <p><b>Draw a picture of things that you might do/wish for if you had a magic wand.</b></p> <p><b><u>WELL BEING/PSHE</u></b></p> <p><b>Join us on Zom on Tuesday to talk about coming back in September. The cautious caterpillar story and activities are there to help remind us that it is ok to feel a bit nervous/excited when things are going to change.</b>  <b>There is a booklet about moving from Year 2 to Year 3 (could be done over the summer if you’d prefer). This will help you think about the things that Mr Borg will be talking to you about in the first few weeks of school and will help him get to know you all.</b></p> <p><b><u>Science Assessments</u></b></p> <p><b>I have included the science assessments to have a go at. We have covered most of these things at school but don’t worry if you can’t rememebr it all!</b></p>
