

Nursery Home Learning

Week beginning Monday 1st June 2020

[All the links can be followed or find the resources on our website \(Curriculum/Home Learning Tab\)](#)

Literacy	Maths	Physical
<p>What has been your favourite story in lockdown?</p> <p>Why not try using the story dice nets in the resources section, or creating your own, to make up a unique story.</p> <p>I had a go and Cinderella captured the Big Bad Wolf and then ate a golden egg, which magically transported her under the sea. It was great fun.</p>	<p>Measuring using your feet or hands.</p>  <p>Do you know how long your bed is? What about your garden? Why not line up all your favourite toys and see how long the line is? What else could you measure? Could you record the number of hands or feet for each item you decide to measure?</p>	<p>Minibeasts colour by numbers: I used to love doing these when I was a little person. I hope you enjoy it too. What a great way to develop pencil control and think about colours and numeral recognition. (See resource sheet or maybe ask your parents to have a go making one for you of their own.)</p>
<p>Discussion time</p>	<p>Wellbeing/Outdoor activity</p>	<p>Phonics</p>
<p>Who has spotted the beautiful butterflies that are around with this gorgeous weather? I have seen lots of Cabbage Whites outside and just today 2 butterflies emerged from the chrysalides in our indoor habitat.</p> <p>Have a go cutting out the pictures on the resource sheet and sticking them in the correct places. Can you discuss the lifecycle? Can you work out from the word mat how your parents could label the lifecycle picture you have made?</p>	<p>Massage: Put on some relaxing music and take a few breaths.</p> <p>Have a look at the ones we learnt wb 27th April (eye glasses, baker and hairdressers) and keep practising those.</p> <p>Now try to include these ones too:</p> <ul style="list-style-type: none"> • Forehead stroke-Place fingers on the forehead and stroke out to the sides. Hold the head for a couple of seconds. • Climbing down a rope-Place one hand just under the armpit. Press firmly yet gently and 'climb', hand over hand, down to the hand. Climb back up again. 	<p>Letter of the week: What can you find or think of that starts with the letter sound 'a'? Can you draw them and practice writing the letter?</p> <p>Rhythm activity-Put 3 plates in a row. Choose one plate to put a small object on. This could be a toy or piece of fruit perhaps. Start from left to right. If a plate is empty tap it. If it has the object on then you clap. This is your rhythm. Repeat as you like. You can then make it more challenging and exciting by adding objects onto other plates or by putting more than one onto the same plate (you have to clap for every object) or by including more plates.</p>
<p>Butterfly Life Cycle</p> 		<p>Other Topics</p> <p>Science: Build a raft</p>  <p>Look for sticks and a feather in your garden or on your daily walk. Lay the sticks in a row. Fold some string in half and using the middle of the string, tie a double knot around the first stick at one end. Then wrap the string around the second stick and tie another knot. Repeat with the rest of the sticks. Do this process again with another piece of string at the other end of the sticks. You can then think of something to use as a sail e.g. feather, paper and skewer and test it out on the water.</p>
