

Nursery Home Learning

Week beginning Monday 8th June 2020

All the links can be followed or find the resources on our website (Curriculum/Home Learning Tab)

Literacy	Maths	Physical
<p>Write Dance: All you need for this activity is some paper, a pencil and a story. Listen to one of your favourite stories e.g. Little Red Hen, The 3 Little Pigs etc. Each time something happens in the story see if you can use your pencil to draw something that represents what has happened. (you don't have to draw something for everything that happens). For example 'the big bad wolf huffed and puffed'-you could draw circles or spirals.</p>	<p>Patterns: Can you have a go at the pattern activity sheet? See what shapes you can recognise and chose which shape will come next in the pattern. (Resource on school website)</p> 	<p>Butterfly lifecycle movement: Following on from last week can you have a go at doing the butterfly lifecycle routine? You could perform it for your grownups and explain how the butterfly is changing! (Resource available on website) Extension: Can you research another life cycle and make your own movements up?</p>
<p>Discussion time</p>	<p>Extension: Can you have a go at finishing the shape pattern game on TopMarks? https://www.topmarks.co.uk/ordering-and-sequencing/shape-patterns</p>	<p>Phonics</p>
<ul style="list-style-type: none"> -What can you see in this picture? -What do you think the octopus is doing in the sink? - Why is the octopus wearing a hat? -Where did the plants come from? - Do you think the octopus is friendly? - How did the octopus get in there? - Is the octopus going somewhere? - Would you like to keep the octopus if you found him? 	<p>Wellbeing/Outdoor activity</p>	<p>Environmental sounds: For this activity you will need a box and some noisy items such as keys, a crisp packet, paper, squeaky toy etc. Show the items first discussing each one, then place them in the box and the adult can choose one to feel making a noise with it. Can you have a go at guessing which item it is? Extension: Can you think about what kind of noise it is making? For example keys make a clink clink noise.</p>
	<p>Blowing Bubbles: This is a lovely way to slow everything down. Try blowing some bubbles outside or on a walk and see if you can see any colours, you could see how fast or slow they are going too! Make sure you take deep breaths in and slow breaths when blowing the bubbles. You can make your own solution by using water and washing up liquid!</p>	<p>Other Topics</p>
	<p>Taste testing: Why not try this fun game with some new foods? You can use a blindfold and taste a vegetable or fruit and see if you can guess what it is. See if you can describe it using your senses!</p> 	<p>Craft: Making a worry monster To make your own worry monster you can use things like toilet tubes, cardboard boxes, straws, paper, colours, plastic cup, glue/tape, scissors etc. Can you create your own model worry monster? After you have made it you can tell all your worries to them and they will munch them all up so you no longer have to worry about them!</p>
