

Keeping Safe

We want children to be able to explore **our environment**, the **wider community** and to make **positive choices**. Our pupils are members of the real and virtual world and we give them opportunities to **learn how to be safe** in both.

Our curriculum includes learning about **keeping healthy, staying safe, using media safely, being aware of their rights and responsibilities**. By learning to be respectful of people and property and understanding boundaries, children can safely learn. At all times we want children to understand why **rules and boundaries are important to keep us safe** but to also give pupils opportunities to be **involved in deciding on rules and boundaries**.

We have established links with other organisations that help children learn to keep safe such as NSPCC, Crucial Crew, and Sheffield City Council Safeguarding Board. Our focus is always on giving children the **knowledge and understanding** to help them make **safe choices** as they go through life.
