

## Taking responsibility for ourselves and others.

Our children are encouraged to thank each other, use good manners and **respect other people's feelings**. We feel that this helps our children understand they have **responsibility for how their make other people feel**.

Our pupils take on a varied range of roles and responsibilities in school. They choose to apply for jobs in KS2 and are selected based on their written application form and interview. Children are **at liberty to choose** what they apply for. In all areas of school, children are given opportunities to support each other's by helping look after their classrooms, shared areas in school and our outdoor environment. This encourages them **to respect each other and the contribution we make to our school community**. We feel taking responsibility for ourselves and others **builds self-esteem and confidence** and enables our pupils to **feel part of the larger community**.
