

Key Objectives for Year 2

Reading, Writing & Maths

READING (Y2 Curriculum)

Expectations for Year 2 children is that they have a **secure understanding** of the knowledge and skills listed below and can demonstrate this in their work:

Word Reading	<ul style="list-style-type: none"> Continue to apply phonic knowledge and skills as the route to decode words until automatic decoding has become embedded and reading is fluent. Read accurately by blending the sounds in words that contain the graphemes taught so far, especially recognising alternative sounds for graphemes. Read accurately words of two or more syllables that contain the same graphemes as above. Read words containing common suffixes. Read further common exception words, noting unusual correspondences between spelling and sound and where these occur in the word. Read most words <i>[at an instructional level 93-95%]</i> quickly and accurately, without overt sounding and blending, when they have been frequently encountered. Read aloud books closely matched to their improving phonic knowledge, sounding out unfamiliar words accurately, automatically and without undue hesitation. Re-read these books to build up their fluency and confidence in word reading.
Comprehension 1	<p>Develop pleasure in reading, motivation to read, vocabulary and understanding by:</p> <ul style="list-style-type: none"> listening to, discussing and expressing views about a wide range of contemporary and classic poetry, stories and non-fiction at a level beyond that at which they can read independently; discussing the sequence of events in books and how items of information are related; becoming increasingly familiar with and retelling a wider range of stories, fairy stories and traditional tales; being introduced to non-fiction books that are structured in different ways; recognising simple recurring literary language in stories and poetry; discussing and clarifying the meanings of words, linking new meanings to known vocabulary; discussing their favourite words and phrases; continuing to build up a repertoire of poems learnt by heart, appreciating these and reciting some, with appropriate intonation to make the meaning clear.
Comprehension 2	<p>Understand both the books that they can already read accurately and fluently and those that they listen to by:</p> <ul style="list-style-type: none"> drawing on what they already know or on background information and vocabulary provided by the teacher; checking that the text makes sense to them as they read and correcting inaccurate reading; making inferences on the basis of what is being said and done; answering and asking questions; predicting what might happen on the basis of what has been read so far.
Comprehension 2	<ul style="list-style-type: none"> Participate in discussion about books, poems and other works that are read to them and those that they can read for themselves, taking turns and listening to what others say. Explain and discuss their understanding of books, poems and other material, both those that they listen to and those that they read for themselves.

WRITING & SPAG (Y2 Curriculum)

Expectations for Year 2 children is that they have a **secure understanding** of the knowledge and skills listed below and can demonstrate this in their work:

Spelling & Vocabulary	<ul style="list-style-type: none"> • Spell by learning new ways of spelling phonemes for which one or more spellings are already known, and learn some words with each spelling, including a few common homophones. • Write from memory simple sentences dictated by the teacher that include words using the GPCs, common exception words and punctuation taught so far. • Form nouns and adjectives using suffixes such as –ness, -er, -ful, -less and by compounding.
Punctuation & Grammar	<ul style="list-style-type: none"> • Form nouns and adjectives using suffixes –er, -est in adjectives and –ly to turn adjectives into adverbs. • Correct choice and consistent use of present tense and past tense throughout writing. • Use the progressive form of verbs in the present and past tense to mark actions in progress. • Subordination (using when, if that, because) and co-ordination (using or, and, but). • Expanded noun phrases for description and specification.
Composition	<ul style="list-style-type: none"> • Use of capital letters, full stops, question marks and exclamation marks to demarcate sentences. • Commas to separate items in a list. • Apostrophes to mark where letters are missing (contracted forms) in spelling and to mark singular possession in nouns.
Transcription	<ul style="list-style-type: none"> • Develop positive attitudes towards and stamina for writing by writing for different purposes. • Make simple additions, revisions and corrections to their own writing by re-reading to check that their writing makes sense and that verbs to indicate time are used correctly and consistently, including verbs in the continuous form. • Proof-read to check for errors in spelling, grammar and punctuation.
Terminology	<ul style="list-style-type: none"> • Form lower-case letters of the correct size relative to one another. • Use spacing between words that reflects the size of the letters. • Write capital letters and digits of the correct size, orientation and relationship to one another and to lower-case letters. • Start using some of the diagonal and horizontal strokes needed to join letters and understand which letters, when adjacent to one another, are best left unjoined.
Terminology	<ul style="list-style-type: none"> • Use and understand: compound, suffix, tense (past, present), noun, noun phrase, statement, question, exclamation, command, adjective, adverb, verb, apostrophe, comma.

MATHS (Y2 Curriculum)

Expectations for Year 2 children is that they have a **secure understanding** of the knowledge and skills listed below and can demonstrate this in their work:

Number & Place Value	<ul style="list-style-type: none"> Count in steps of 2, 3, and 5 from 0, and in tens from any number, forward and backward. Recognise the place value of each digit in a two-digit number (tens, ones). Identify, represent and estimate numbers using different representations, including the number line. Compare and order numbers from 0 up to 100; use <, > and = signs. Read and write numbers to at least 100 in numerals and in words. Use place value and number facts to solve problems.
Addition & Subtraction	<ul style="list-style-type: none"> Solve problems with addition & subtraction: using concrete objects and pictorial representations, including those involving numbers, quantities and measures; applying their increasing knowledge of mental and written methods. Recall and use addition & subtraction facts: to 20 fluently; and derive and use related facts up to 100. Add and subtract numbers using concrete objects, pictorial representations, and mentally, including: TU and units, TU and tens, TU and TU, adding three one-digit numbers. Show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot. Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.
Multiplication & Division	<ul style="list-style-type: none"> Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers. Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (x), division (÷) and equals (=) signs. Show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot. Solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts.
Fractions	<ul style="list-style-type: none"> Recognise, find, name and write fractions $\frac{1}{3}$, $\frac{1}{4}$, $\frac{2}{4}$, and $\frac{3}{4}$ of a length, shape, and set of objects or quantity. Write simple fractions <i>for example</i>, $\frac{1}{2}$ of 6 = 3 and recognise the equivalence of $\frac{2}{4}$ and $\frac{1}{2}$.
Measurement	<ul style="list-style-type: none"> Choose and use appropriate standard units to estimate and measure to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels: length / height in any direction (m/cm), mass (kg/g), temperature (°C), capacity (l/ml). Compare and order lengths, mass, volume/capacity and record the results using >, < and =. Recognise and use symbols for pounds (£) and pence (p); and combine amounts to make a particular value Find different combinations of coins that equal the same amounts of money. Solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change. Compare and sequence intervals of time. Tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times. Know the number of minutes in an hour and number of hours in a day.
Geometry: Properties of shape	<ul style="list-style-type: none"> Identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line. Identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces. Identify 2-D shapes on the surface of 3-D shapes [<i>for example</i>, a circle on a cylinder and a triangle on a pyramid]. Compare and sort common 2-D and 3-D shapes and everyday objects.
Geometry: Position & Direction	<ul style="list-style-type: none"> Order and arrange combinations of mathematical objects in patterns and sequences. Use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise).
Statistics	<ul style="list-style-type: none"> Interpret and construct simple pictograms, tally charts, block diagrams and simple tables. Ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity. Ask and answer questions about totalling and comparing categorical data.

At the end of the year, your child will be judged against all the above objectives using the scale below.

End-of-year assessments:	
1	Working beyond Year 2 expectations.
2	Working at Year 2 expectations.
3	Working towards Year 2 expectations
4	Working at an earlier stage of the curriculum

*In addition to this, Year 2 children sit their SATs tests (National Curriculum Tests). These are used to inform teacher assessment and we **do not** place undue pressure on our children. If you would like more information, please speak to your child's class teacher.*
