

This statement details our school's use of pupil premium funding to help improve the attainment of our disadvantaged pupils.

It outlines our Pupil Premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of Pupil Premium had within our school.

Tackling disadvantage is integral to our whole school ethos, 'Nurturing confidence, nurturing potential, nurturing success'.

#### **School overview**

Detail	Data
School name	Wharncliffe Side Primary School
Number of pupils in school	126
Proportion (%) of pupil premium eligible pupils	30%
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended)	2024-2027
Date this statement was published	November 2024
Date on which it will be reviewed	September 2025
Statement authorised by	Matt Gaughan (Headteacher)
Pupil premium lead	Matt Gaughan
Governor lead	Sandy Glossop

#### **Funding overview**

Detail	Amount
Pupil premium funding allocation this academic year	£56,200
Recovery premium funding allocation this academic year	£0
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year	£56,200

#### Part A: Pupil premium strategy plan

#### Statement of intent

Pupil Premium and Recovery Premium are additional streams of funding provided to schools to support children who may underachieve and to support the narrowing of the achievement gap, which is sometimes called 'catch up'.

Our key objectives in relation to spending the funding are as follows:

- Raising standards for eligible pupils to close the gap on national outcomes
- Increasing the attendance and decreasing the persistent absence of all pupils
- Improving and maintaining the quality of teaching for all pupils
- Overcoming the learning barriers of all pupils, with a particular focus on those who are disadvantaged
- Maximising the engagement and readiness to learn for all pupils

This funding is provided to schools in addition to the main school funding grant. It is allocated according to the number of pupils on roll in the following categories:

- Pupils who are eligible for free school meals (FSM) or have been eligible for free school meals within the last 6 years
- Pupils in local authority care for 6 months or more
- Pupils from service families

The Pupil Premium grant has led to improved levels of attainment in reading, writing and maths for targeted pupils. It has also enabled wider experiences for pupils which have inspired and motivated them.

The information in this document gives detail as to how our Pupil Premium funding is being spent in order to improve pupil outcomes. A significant amount of the funding is being spent on staffing costs. As a school, we believe that timely and appropriate additional input from skilled professionals, in line with EEF recommendations<sup>1</sup>, is the best method of diminishing the differences in terms of knowledge and understanding between different groups of children. Our Teaching Assistants (TAs) are carefully planned into all lessons, by class teachers, so that they are used to help raise the attainment of identified groups and individuals. Whilst some research has shown that additional TA support is not a cost effective method of raising pupil attainment, our outcomes demonstrate that, as a result of effective deployment and training, the strategy is successfully improving outcomes for targeted groups.

<sup>&</sup>lt;sup>1</sup> A summary of Education Endowment Foundation recommendations can be found in the *Making Best Use of Teaching Assistants – Recommendations* document (although sections V and VI are particularly relevant) accessible at <a href="https://educationendowmentfoundation.org.uk/education-evidence/guidance-reports/teaching-assistants">https://educationendowmentfoundation.org.uk/education-evidence/guidance-reports/teaching-assistants</a> (last accessed 7th October 2021).

# **Challenges**

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Many of our pupils eligible for Pupil Premium have additional vulnerabilities (e.g. SEND)
2	Identified gaps in learning are hindering progress for some pupils
3	Social and emotional barriers for vulnerable pupils can cause a negative impact on progress, attainment and behaviour
4	Some pupils are at risk of becoming persistent absentees (having less than 90% attendance)

# **Intended outcomes**

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria	
<ul> <li>All disadvantaged pupils receive the support they need to make good or better progress when compared to children who are not classed as disadvantaged. This will include an up-to-date specific plan (called a Support Plan) where pupils also have SEND.</li> <li>Reasonable adjustments (for example, changes to how we teach children or the equipment we use) are made for all pupils that need them.</li> </ul>	<ul> <li>Overall, disadvantaged pupils make as much progress (or more than) pupils who are not disadvantaged.</li> <li>Support plans are in place for all pupils that need them and these are shared with, and understood by, Parents and Carers.</li> <li>100% of identified pupils successfully access the curriculum, with reasonable adjustments in place where needed.</li> </ul>	
Gaps in learning are addressed effectively both at home and in school, leading to successful catch up.	<ul> <li>All children who need some extra support get that support, for example extra work in a small group to help them catch up.</li> <li>These small group sessions are called 'interventions' in school and leaders will have checked to make sure these are working well and leading to more progress. When they aren't working so well, leaders in school will have made changes to make sure they work more effectively, for example by changing the intervention or giving extra training to staff.</li> </ul>	
Quality first teaching informed by robust and accurate assessments.	Learning Support reports are produced as soon as possible for children that need them. The information in the reports is shared with parents and used to plan in class (and small group) activities and interventions.	

School staff are more able to support children with emotional and or mental health needs.	Most pupils with identified emotional or mental health needs receive in school support that supports their wellbeing.
Targeted funding increases pupils' ability to take part in out of hours learning and educational visits etc. therefore supporting growth in social skills, confidence, and positive mental health.	All pupils are able to take part in events, activities and visits that they want to join in with.
Families value the need for regular attendance and make sure their children attend school every day.	<ul> <li>All targeted pupils are not classed as persistent absentees (so they are in school more than 90% of the time).</li> <li>Most targeted pupils have attendance that is the same or better than the school's average attendance (so they are in school more than 95% of the time).</li> </ul>

# Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

#### Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £1500

Activity	Evidence that supports this approach	Challenge number(s) addressed
Continue the second year of the South Yorkshire Maths Hub training, integration of Mastery Number into early Years and KS1 teaching with assessment-informed scaffolded keep up interventions for disadvantaged children.  Maths lead training for teachers and teaching assistants.	https://educationendowmentfoundation.org.uk/educationevidence/teaching-learning-toolkit/mastery-learning "Mastery learning approaches aim to ensure that all pupils have mastered key concepts before moving on to the next topic – in contrast with traditional teaching methods in which pupils may be left behind, with gaps of misunderstanding widening. Mastery learning approaches could address these challenges by giving additional time and support to pupils who may have missed learning, or take longer to master new knowledge and skills.  In order for mastery approaches to be effective for pupils with gaps in understanding, it is crucial that additional support is provided. Approaches that simply build upon foundational knowledge without targeting support for pupils that fall behind are unlikely to narrow disadvantage gaps."	1,2
Positive Regard Training	https://positiveregard.co.uk https://www.simplypsychology.org/unconditional- positive-regard.html Unconditional positive regard (UCR) is championed as a pivotal standard for supporting all students equitably, es- pecially those facing personal challenges.  Rather than judging struggling students, UPR shifts the focus to compassionately understanding each child's unique perspective and needs in order to lift them up.	3,4
Zones of Regulation – develop and enhance	https://educationendowmentfounda- tion.org.uk/early-years/evidence-store/personal- social-and-emotional-development  There is evidence that this approach is effective.  Proactively and explicitly teaching children strategies for managing their emotions can be effective.  Practitioners have an important role to play in model-ling how to manage emotions.	3,4
UCAN Language Training	https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/oral-language-interventions On average, oral language approaches have a high impact on pupil outcomes of 6 months' additional progress.	1,2

# Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £49,700

Activity	Evidence that supports this approach	Challenge number(s) addressed
Contribution towards cost of Teaching Assistant posts	<ol> <li>Making Best Use of Teaching Assistants  </li></ol>	1, 2, 3
Pupil Premium Champion (named member of staff to provide additional support for eligible children) – support with metacognition and self- regulation	As above; plus: https://educationendowmentfoundation.org.uk/ed- ucation-evidence/teaching-learning-toolkit/meta- cognition-and-self-regulation	1, 2, 3
Learning Support Assessments	SEND Code of Practice January 2015.pdf (publishing.service.gov.uk)  NB This is an essential part of the graduated response.	1, 2
Additional equipment and resources to support targeted interventions	<ol> <li>Teaching Assistant Interventions   EEF (educationendowmentfoundation.org.uk)</li> <li>Reading comprehension strategies   EEF (educationendowmentfoundation.org.uk)</li> <li>Oral language interventions   EEF (educationendowmentfoundation.org.uk)</li> <li>Phonics   EEF (educationendowmentfoundation.org.uk)</li> <li>One to one tuition   EEF (educationendowmentfoundation.org.uk)</li> </ol>	1, 2, 3

# Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £5000

Activity	Evidence that supports this approach	Challenge number(s) addressed
Contribution towards the cost of educational visits and breakfast club	Ofsted: Learning outside the classroom - How far should you go? (nationalarchives.gov.uk) https://www.evidence.nhs.uk/search?q=school+breakfast+clubs	3, 4
Headteacher, admin assistant and PP Champion time to tackle attendance issues	Absence and attainment at key stages 2 and 4: - GOV.UK  (www.gov.uk)  https://www.gov.uk/government/publications/working-together- to-improve-school-attendance  Just one day off can hamper children's life chances - GOV.UK  (www.gov.uk)	4
Use of EYFS PP funding to offer additional sessions in Nursery	https://www.gov.uk/government/publications/international-perspectives-on-early-years/international-perspectives-on-early-years  Many also offer additional funded provision, or priority access, for certain vulnerable groups. Research shows that these groups often benefit the most from high-quality provision It is important that children's participation in the early years is high. Access to provision, especially high-quality provision, is linked to healthy development and educational success. It also reduces social inequalities and attainment gaps between children from different socio-economic backgrounds	1, 2, 3, 4
Maintain Healthy Early Years Award	https://www.sheffielddirectory.org.uk/start-well-sheffield/hey-award Healthy Early Years is a quality assurance award, accredited by the Director of Public Health. The training and award recognises and celebrates a whole setting holistic approach to healthy early years. The award covers seven key strands and promotes and supports key Public Health messages, demonstrating your commitment to supporting children, families, staff and the wider community in making informed choices supporting both physical, mental and emotional health and wellbeing.	3,4
Provide opportunities to participate in a range of sporting events / activities (See Sports Premium document)	https://www.youthsporttrust.org/research-listings/research/benefit-of-sport-participation New research shows sports participation in school is associated with higher levels of wellbeing for young people. It also shows that participation in sport is a significant predictor of self-belief and mental toughness and the continued promotion of school sport throughout a child's time at school, up to and including during exams, should be encouraged.	3

# **Externally provided programmes**

The school did not purchase any additional externally provided programmes in the previous academic year.

Total budgeted cost: £56,200

#### Part B: Review of outcomes in the previous academic year

#### Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2023-24 academic year.

- We have seen a gradual increase in the percentage of children qualifying for Pupil Premium funding. As stated
  on page 1 of this document, 30% of the school are now eligible compared to 19% in 2019-20 (before the
  COVID pandemic). This increase has seen us go from under the National Average to above the National Average meaning the Pupil Premium Grant is becoming even more important and increasing the potential for a
  positive impact.
- Attendance for 2023/24 was 93.38% amongst our Pupil Premium children. This represented a big improvement over the figure of 86.8% for 2020-21 (when the previous 3 year plan started).
- More children from PP families are attending our daily breakfast club and have taken the opportunity to participate in after-school sporting events and activities (see Sports Premium plan)
- Maintaining positive mental health and wellbeing was a major focus of this academic year we took part in the
  first round of Positive Regard training with the Locality / Trust and implemented strategies within school which
  had a positive impact on the wellbeing of our children (source: Leuven's Scale assessments)
- 75% of our EYFS cohort achieved GLD in 2024 (this was above the National Average); interventions are in place for 2024-25 to support those that didn't (the majority have identified SEND).
- 76% of our Y1 pupils passed the Phonics Screening Check. Although this was slightly below the National Average (79.5%), it demonstrated a big improvement for that particular cohort (only 61% had achieved GLD in 2023). This cohort has a particularly high percentage of disadvantaged pupils (38% were on the PP register)
- Although the KS1 assessments are no longer statutory, we continue to do them as they provide a good measure of attainment & progress. 82% of our Y2s achieved ARE in Reading but only 53% in Writing (Writing is a key focus for 2024-25). 65% of the cohort achieved ARE in Maths.
- In Y6, 55% of the whole cohort achieved ARE in Reading & Writing (and 45% in Maths). This was a cohort with 45% SEND (and 18% EHCPs).
- Of the 34 PP children at our school in July 2024, 15 were also on the SEND register (44%) this was a slight reduction on the previous year.
- Pupil mobility during 2023-24 was 7.8% (lower than previous years).

#### **Further information**

- We have worked with an external consultant (Marc Rowland) to develop our provision for disadvantaged learners. We work collaboratively with the other schools in our trust to maximise learning potential and secure best value for money (where appropriate).
- We have a named governor with responsibility for overseeing this work. He is in regular dialogue with school and has carried out face-to-face and virtual monitoring activities.
- We are a small school with mixed-age classes and high numbers of children with SEND. We
  value the contributions made by our teaching assistants they are vital to the successful
  integration and inclusion of *all* pupils.
- We welcome the change in format to this strategy document. A three-year strategy enables
  us to plan ahead and make lasting changes to the lives of our most vulnerable children. We
  will, however, review this strategy each year to ensure it continues to meet the needs of our
  pupils.
